

SURVIVOR: TELECOM ISLAND!

LOCAL - STATE - NATIONAL FRANCHISING

9:00 - 10:45 AM

Although we're not in Fiji, and we're not competing against our peers, the rules of competition have changed. We will debate the worldly affects of AB2987 and not treat California as an Island. We will search for issues not currently found in the PUC order and whether or not we will survive recent action by the FCC and its potential affects on California and AB 2987.
