**Jurisdiction(s)** My firm represents 21 cities and 4 water districts as well as other local entities. I am currently the Assistant Town Attorney for the Town of Yucca Valley.

**You Serve**

*In the space provided below, please answer the following questions:*

**Describe the duties and responsibilities of your current position.**

While I advise our client cities on all areas of land use law, public meeting laws, and the like, I specialize in communications technology law, advising our client cities and water districts on wireless telecommunications issues including tower siting and regulations, cable issues, PEG, and CPUC and FCC proceedings.

**Describe what in your background will make you a valuable member of the SCAN NATOA Board or as President Elect.**

I was on the Board for the Orange County Hispanic Bar Association for 4 years and learned a lot about the inner workings of professional organizations. Further, I have a long-held passion for communications technology starting in law school and continues today. Finally, I actively support SCAN and its members and would like to continue doing so.

**Describe your involvement in SCAN NATOA activities to date.**

I am currently the President of SCAN. I participated in almost all events hosted this year and participated in an FCC joint filing with the League of California Cities and CSAC. I have been on the SCAN Board for 2 years. I spoke at both the Northern California and Southern California Regulatory Workshops in 2012/2013 and participated in advocacy efforts in support of the CAP Act in 2011/2012. Prior to being on the Board, I regularly attended seminars and conferences held by SCAN NATOA.

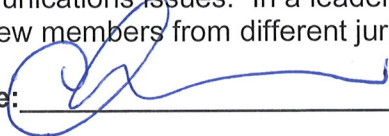

**Describe in detail what SCAN NATOA, as an organization should be doing to better serve the needs of our members. How would you propose implementation of your ideas?**

SCAN has great workshops and seminars. Providing more networking opportunities may enable more idea-sharing among members. Membership outreach can be improved to reach a greater number of local entities and increase membership. I plan to continue the efforts of SCAN with increased advertising.

**Summarize why you want to serve on the SCAN NATOA Board of Directors or as President.**

I would like to serve as President of SCAN because I believe that SCAN is an important organization for local governments in handling PEG programming and wireless telecommunications issues. In a leadership role, I hope to continue SCAN's efforts and hope to bring in new members from different jurisdictions.
