You Serve

In the space provided below, please answer the following questions:

Describe the duties and responsibilities of your current position.

My law firm, consisting of three full time attorneys and one of-counsel, represent local governments in -- oddly enough -- telecommunications matters ranging from wireless planning and leaseing, to fiber optic network design and contracting, to lease enforcements, and a bunch of stuff in the middle of all of that.

Describe what in your background will make you a valuable member of the SCAN NATOA Board or as President Elect.

I bring the technology layer to SCANS board and members. I'm a wire-twister from way back (36ish years...eek), and connect the dots between the technology and the regulation. At least I try to do that. Last year I completed my Masters of Law degree in IT/Telecom, and this summer I begin my doctoral studies at Northeastern University (Doctor of Law and Policy student). I 'eat' this stuff.

Describe your involvement in SCAN NATOA activities to date.

I am one of the founders of the SCAN Chapter. I have served SCAN in various capacities such as Director, President, Immediate Past President, and semi-official Elvis impersonator for the SCANETTES. Alas, the King IS dead.

Describe in detail what SCAN NATOA, as an organization should be doing to better serve the needs of our members. How would you propose implementation of your ideas?

We must continue the good job we're doing focusing on wireless regulation at the state and federal level, and wired regulation in connection with DIVCA. SCAN has achived a national position in espousing rational telecom regulatory positions, and we must continue to do so to have continued impact for our western states constituents.

Summarize why you want to serve on the SCAN NATOA Board of Directors or as President.

I serve at the pleasure of the membership, and I take great personal pleasure in serving the membership.

I'm really interested in how things work, and people, too. I'm very impressed by very quiet people who do very loud things very quietly. That sums up your SCAN Board, and our SCAN membership family.

Continuing to serve as a Director of SCAN allows me to support our Board and community of members. I hope you'll agree.
