# TELECOMMUNICATIONS 101

A broad overview of telecommunications technology and local regulatory authority, including cable, telephone, the Internet and wireless technologies. This seminar is designed for those who are new to the field as well as veterans needing a broader understanding of telecommunications, including cable franchise administrators, public works and engineering staff, planners, attorneys and elected officials.

The seminar will be conducted live in Foster City, and will be streamed over the Internet and shown on a large screen in Cerritos with additional facilitators located in Cerritos.

You can also register to receive the seminar via teleconference from your desktop.
